1. INTRODUCTION

Fortescue Ltd (Fortescue or the Company) is listed on the Australian Securities Exchange (ASX) and is required to comply with the continuous disclosure provisions of the ASX Listing Rules and the Corporations Act 2001 (Cth).

Fortescue is committed to ensuring its disclosure is accurate, balanced and expressed in such a way to allow investors to assess the impact of the information disclosed when making investment decisions.

This Continuous Disclosure and Market Communications Policy summarises the processes that have been adopted to ensure Fortescue complies with its disclosure obligations.

This policy applies to all directors, officers, employees, joint venture partners, contractors or suppliers and is reviewed annually to ensure that it remains effective in guiding disclosure in accordance with Fortescue's disclosure obligations.

2. CONTINUOUS DISCLOSURE

2.1.1 Commitment to Continuous Disclosure

Fortescue will immediately notify the ASX of any information concerning it that a reasonable person would expect to have a material effect on the price or value of Fortescue's securities, unless exempted by the Listing Rules.

2.1.2 Disclosure Committee

Fortescue's Disclosure Committee has responsibility for the implementation of this policy.

The Disclosure Committee reviews potentially material information in order to determine whether it must be disclosed and oversees the processes for identification and release of material information.

A decision of the Disclosure Committee requires a quorum of two committee members which must include at least one of the Chief Executive Officer Metals or Chief Executive Officer Energy (or delegate) and one of the following officers:

1. Chief Financial Officer Energy
2. Chief Financial Officer Metals;
3. Chief General Counsel; or
4. Company Secretary.

2.1.3 Identification of Potentially Material Information

All directors and all officers who are responsible for relevant areas of Fortescue's operations are responsible for identifying potentially material information. This includes all staff invited to participate in the Executive and Senior Staff Incentive Plan (ESSIP). Where potentially material information is identified, it must be reported to the Company Secretary immediately after the officer becomes aware of it. If the Company Secretary is unavailable, the information should be reported directly to the Chief Financial Officer Metals and/or Chief Financial Officer Energy.

It is not possible to pre-determine what type of information may be material for disclosure purposes and relevant information will need to be considered on a case-by-case basis. If there is any doubt regarding whether information is required to be disclosed, a prudent approach should be undertaken and the information reported to the Company Secretary immediately.

2.1.4 Summary of Disclosure Process

All directors and all officers who are responsible for relevant areas of Fortescue's operations, including all staff invited to participate in the Executive and Senior Staff Incentive Plan (ESSIP), will be informed of the Company's continuous disclosure obligations and given a copy of the Continuous Disclosure Policy including any amended versions that may be issued from time to time.

When potentially material information is identified it will promptly be submitted to the Disclosure Committee for consideration of whether the information is material, taking into account such advice as the Committee may consider necessary. The Company Secretary maintains a record of all matters that are assessed in accordance with this process. If it is determined that the information should be disclosed to the ASX, an appropriate release will be prepared and circulated to the Disclosure Committee for approval prior to release. The Company Secretary is responsible for all communications with the ASX and any other relevant stock exchange in accordance with applicable laws, listing rules and regulations. Information should not be provided to any other person prior to receipt of notification from the ASX confirming release of the information to the market.

If the Disclosure Committee is unavailable to determine whether to make or approve an ASX announcement or call a trading halt, and a rapid response is required, any two of the following individuals may either authorise the disclosure or call a trading halt:

1. Chief Executive Officer Energy;
2. Chief Executive Officer Metals;
3. Chairman of the Board;
4. Deputy Chair;
5. Chief Financial Officer Energy;

6. Chief Financial Officer Metals
7. Chief General Counsel; and
8. Company Secretary.

The Company Secretary is responsible for ensuring that directors receive copies of all material market announcements promptly after they have been made.

Continuous disclosure is a standing agenda item for all meetings of the board and board committees. Directors review the continuous disclosure matters that have been assessed by the Disclosure Committee since their last meeting and consider whether any decisions made at the meeting should be disclosed to the ASX.

2.1.5 Policy Breaches

Breaches of this policy or any guidance documents that support this policy may lead to a breach of applicable legislation, ASX Listing Rules or other regulations. This may result in damage to the Company's reputation and potential criminal and civil liabilities could be imposed on Fortescue or its directors, officers and employees. Accordingly, breaches will be taken very seriously by the Company.
